### **DETAILED ACTION**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Colitz on March 14, 2008.

The application has been amended as follows:

On page 6, paragraph 28 has been deleted and replaced with the following three paragraphs:

FIG. 4 is a perspective view of the refreshable Braille display.

FIG. 5A is a perspective view of the removable downward stop for use with the electromechanical tactile cell.

FIG. 5B is a side view of the removable downward stop for use with the electromechanical tactile cell.

### ***Allowable Subject Matter***

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest a device having all of the limitations of claims 1 and 23.

Electromechanical tactile cell assemblies comprising bendable piezoelectric reeds

which bend about a fulcrum in response to application of voltage are known, as shown for example by Hong, Nakajima, Ogawa and Tetzlaff. However, there is no suggestion of providing such a device with a plurality of conductive fulcrum pins and conductive supports as recited in the claims. The utility of these features is discussed at page 6 of the specification. Because the prior art does not suggest these features, claim 1, and dependent claims 2-21 and 24, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hong, Nakajima, Ogawa, Tetzlaff, Schmidt, Tieman, Litschel, Ida, Schleppenbach, Yang and Hayward disclose various Braille display devices.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kurt Fernstrom whose telephone number is (571) 272-4422. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Kim can be reached on 571 272-4463. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
